

Copper Systems

Leviton copper systems combine category-rated performance with high-density, user-friendly designs to deliver the industry's most innovative family of solutions. Whether you are supporting a large enterprise, data centre, or a small business infrastructure, we have the system to fit your needs. Refer to the system features below and on the following pages for an overview of our three copper system brands: Atlas-X1, eXtreme, and Plus.

		Plus UTP Cat 5e 6 6A Shielded Cat 5e 6 6A	eXtreme® UTP Cat 5e 6 6A	Atlas-X1™ UTP Cat 5e 6 6A Shielded Cat 5e 6 6A 8	
Proven performance and simple installation features allow for streamlined deployment.					
Pairs high quality and performance with a user-friendly design to support fast, easy installations.					
Premier category-rated system that delivers the highest level of verified performance and reliability. Supports high-performance wireless, high-definition AV, and high-power PoE applications.					
MISSION CRITICAL	Category 8 solutions			•	
	High-performance wireless and AV support			•	
	Advanced features (icons, shutters) for clear network ID and protection			•	
	Unified form factor (Cat 5e to Cat 8) and termination style for easy migration			•	
	ENTERPRISE	Jack-face category marking		•	•
		13 colour options		•	•
		Retention Force Technology in jacks protects tines and increases longevity		•	•
		Jack pin array geometry minimises arcing/pitting damage in Power over Ethernet (PoE) applications		•	•
		Up to 100-Watt PoE support		•	•
	ENTERPRISE LIGHT COMMERCIAL	High EuroClass cables	•	•	•
Component-rated products available		•	•	•	
Third-party channel tested and verified		•	•	•	
Performance exceeds the standard		•	•	•	
Shielded systems for EMI/RFI protection	•		•		
High-density unshielded and shielded system with shorter depth jack to fit shallow backboxes	•		•		
		STANDARD SYSTEM	ENHANCED SYSTEM	PREMIER SYSTEM
