

24 Port 1U V12 Angled Snap-In-Jack Panel

Datasheet: GD059106v11

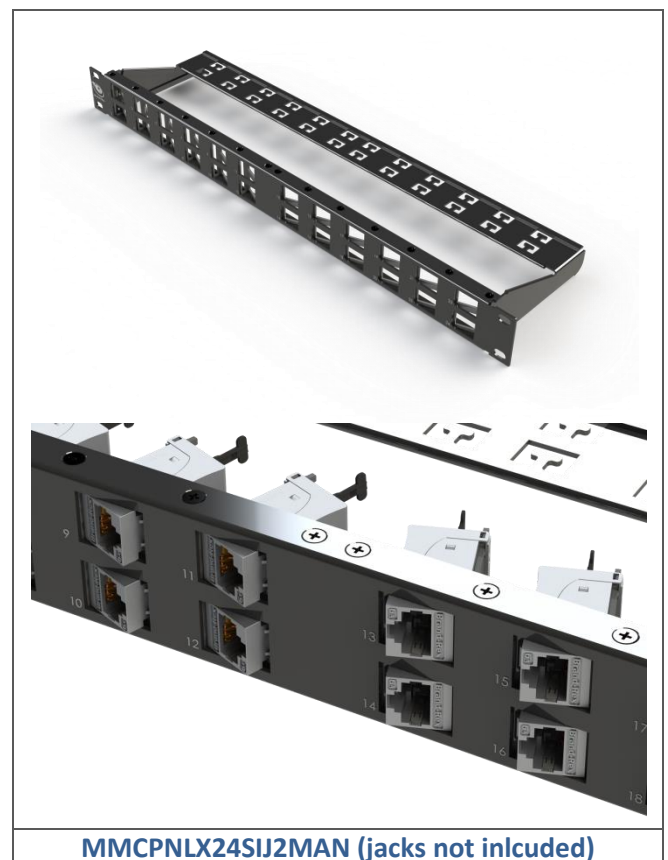

Brand-Rex | a **LEVITON** company

APPLICATION

The Brand-Rex Angled Snap-in-Jack Patch Panel is a 1U 24 Port Panel that facilitates cord routing directly into the rack vertical side management thus rendering horizontal cable managers redundant. The resultant increased rack density saves valuable space but also offers a panel that eases bending stresses on the cord while maximising performance. The design accommodates a separate rear cable management to provide a strain relief feature for the simple routing of horizontal cabling and also allows for colour coded labelling.

FEATURES

- 19" rack compatible.
- Detachable cable manager.
- Durable powder coat finish in black (RAL9005)
- Suitable for both screened and unscreened jacks.
- Supplied with rack mounting kit.
- Maximizes rack density and eliminates the need for horizontal cable management

24 Port 1U V12 Angled Snap-In-Jack Panel

Datasheet: GD059106v11

PHYSICAL CHARACTERISTICS

MATERIALS

- Powder Coated Plain Carbon Steel

ENVIRONMENTAL CONDITIONS

- Operating temperature from -10°C to 60°C at 93% relative humidity, non-condensing
- Storage temperature from -40°C to 70°C

COMPATIBILITY MATRIX
