

APPLICATION

The unique retrofit clip forms the key in connecting your standard LC fibre patch leads to the SmartPatch intelligent patching system. These clips can be mounted even if the connections are already established and fit perfectly onto all Brand-Rex LC fibre patch leads to provide the system with intelligent information once programmed. Within the clip a powerful unique RFID tag is integrated which can store addition information like, length, measurement reports, location, patching cycles etc.

FEATURES

- Retrofitable to LC Duplex patchcords
- Integrated RFID transponder with contactless identification
